

# KENDA KLAIMS ANOTHER WORLD RECORD

---

**G**uthrie, Oklahoma, famous in the equine industry for its Lazy E Arena, finds a seat in the history books of Cowboy Mounted Shooting as Kenda Lenseigne proves once again that she is unstoppable in this adrenaline inspired sport.

Lenseigne and her horse Justin had the crowd on the edge of their seats as they broke a world record in the final run of the Colt Eliminator at the 2011 Central United States Championship. This 11.486 second run makes number seven on her list of world records, with three of them held in this very arena.

Kenda credits her success first to her partner Justin, who remains consistent, aggressive and well protected with VenTECH sports medicine products from Professional's Choice, and also adds the importance of the right gear for the sport. "This pattern can be won or lost in the gun change, so having the right gun rig set up is key. I'm using my new line of Kenda Signature Series Bianchi gun leather that was designed with a speedy gun change in mind".

Kenda, decked from head to toe in Cruel Girl Clothing and Justin in his new KL Circle Y Shooting saddle finished the weekend also winning the Overall Cowgirl title, making this their eighth Overall win at a CMSA major.

Watch for them as they continue to heat up the 2011 shooting season -- Next stop: Battle in the Saddle in Oklahoma City.
