These are the Top 10 Cowboys and Top 10 Cowgirls in CMSA. The rankings are based on the three best overall finishes from the most recent Big Four matches (Nationals, Westerns, Easterns and Worlds). *As required for Top 10 Cowboy/Cowgirl each of these Cowboys or Cowgirls have been a Top Ten finisher in at least one of the Big Four events.* The lower the number, the higher the competitor placed at these events. A shooter who places second, for example, receives 2 points; a seventh place finisher receives 7 points. The 10 cowboys and cowgirls with the lowest number of points are ranked as the Top 10 Cowboys and Cowgirls. A shooter's best three finishes out of the four preceding Big Four Championships are used to calculate the rankings.
